CFD Permit Types and Descriptions

To manufacture, store, or handle an aggregate quantity of Level 2 or products in excess of 500 pounds. 2 Amusement Bldgs. To operate a special amusement building (i.e. haunted house, interior which convey occupants via a walkway or ride, etc. 3 Aviation Facility To use a Group H or S occupancy for the servicing and/or repair of a 4 Carnivals and Fairs To operate or conduct a carnival or fair. Note: Refer to SOG 231 for a 5 Combustible Dust Producing Operation To operate a grain elevator, flour starch mill, feed mill, or a plant pulvocal, cocoa, magnesium, spices or sugar, or other operations product a carnival or fair. Note: Refer to SOG 231 for a 7 Compressed Gases The storage and handling of combustible fibers in quantities greater to 5 Compressed Gases The storage, use and handling of compressed gases in amounts except feet of corrosive, 6000 cubic feet of inert or simple asphyxiant, 504 coxidizing (including oxygen), or any amount of toxic or highly toxic greater of the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. 8b Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. 8c Covered Mall Bldgs. For the use of open-flame producing equipment in a mall building. 7c produce, store, transport on site, use, handle or dispense cryoger excess of: > 1 gals. flammable inside/60 gals. outside; of outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	ircraft. additional req. rerizing aluminum, cing comb. dust. than 100 cubic ft. reeding: 200 cubic ubic feet of as. ent, or displays of
products in excess of 500 pounds. 2 Amusement Bldgs. To operate a special amusement building (i.e. haunted house, interior which convey occupants via a walkway or ride, etc. 3 Aviation Facility To use a Group H or S occupancy for the servicing and/or repair of a Carnivals and Fairs To operate or conduct a carnival or fair. Note: Refer to SOG 231 for a To operate a grain elevator, flour starch mill, feed mill, or a plant pulvocal, cocoa, magnesium, spices or sugar, or other operations product coal, cocoa, magnesium, spices or sugar, or other operations product to the storage and handling of combustible fibers in quantities greater to the storage and handling of compressed gases in amounts except feet of corrosive, 6000 cubic feet of inert or simple asphyxiant, 504 coxidizing (including oxygen), or any amount of toxic or highly toxic greater to the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. 8b Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. Cryogenic Fluids For the use of open-flame producing equipment in a mall building. To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	ircraft. additional req. rerizing aluminum, cing comb. dust. than 100 cubic ft. reeding: 200 cubic ubic feet of as. ent, or displays of
Amusement Bldgs. To operate a special amusement building (i.e. haunted house, interior which convey occupants via a walkway or ride, etc. Aviation Facility To use a Group H or S occupancy for the servicing and/or repair of a Carnivals and Fairs To operate or conduct a carnival or fair. Note: Refer to SOG 231 for a To operate a grain elevator, flour starch mill, feed mill, or a plant pulve coal, cocoa, magnesium, spices or sugar, or other operations product a Combustible Fibers The storage and handling of combustible fibers in quantities greater to the storage, use and handling of compressed gases in amounts except feet of corrosive, 6000 cubic feet of inert or simple asphyxiant, 504 coxidizing (including oxygen), or any amount of toxic or highly toxic greater to the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. Covered Mall Bldgs. For the use of open-flame producing equipment in a mall building. To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	ircraft. additional req. rerizing aluminum, sing comb. dust. than 100 cubic ft. reeding: 200 cubic ubic feet of as. ent, or displays of nic fluids in nside/500 gals.
which convey occupants via a walkway or ride, etc. 3 Aviation Facility To use a Group H or S occupancy for the servicing and/or repair of a 4 Carnivals and Fairs To operate or conduct a carnival or fair. Note: Refer to SOG 231 for a 5 Combustible Dust Producing Operation Combustible Fibers The storage and handling of combustible fibers in quantities greater to The storage, use and handling of compressed gases in amounts except of corrosive, 6000 cubic feet of inert or simple asphyxiant, 504 control oxidizing (including oxygen), or any amount of toxic or highly toxic greater to the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. 8b Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. For the use of open-flame producing equipment in a mall building. To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; of gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	ircraft. additional req. rerizing aluminum, sing comb. dust. than 100 cubic ft. reeding: 200 cubic ubic feet of as. ent, or displays of nic fluids in nside/500 gals.
4 Carnivals and Fairs To operate or conduct a carnival or fair. Note: Refer to SOG 231 for a combustible Dust Producing Operation 6 Combustible Fibers The storage and handling of combustible fibers in quantities greater to coxidizing (including oxygen), or any amount of toxic or highly toxic greater to coxidizing (including oxygen), or any amount of toxic or highly toxic greater to covered Mall Bldgs. 8 Covered Mall Bldgs. 9 Cryogenic Fluids To operate or conduct a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or fair. Note: Refer to SOG 231 for a carnival or support or sugar, or other operations produce and plant pulv. Sugar, or other operations produce and pl	rerizing aluminum, cing comb. dust. than 100 cubic ft. reeding: 200 cubic tubic feet of as. rent, or displays of anic fluids in nside/500 gals.
To operate a grain elevator, flour starch mill, feed mill, or a plant pulve coal, cocoa, magnesium, spices or sugar, or other operations product coal, cocoa, magnesium, spices or sugar, or other operations product coal, cocoa, magnesium, spices or sugar, or other operations product coal, cocoa, magnesium, spices or sugar, or other operations product coal, cocoa, magnesium, spices or sugar, or other operations product coal, cocoa, magnesium, spices or sugar, or other operations product coal, cocoa, magnesium, spices or sugar, or other operations product flowers. The storage and handling of combustible fibers in quantities greater of the storage, use and handling of compressed gases in amounts except feet of corrosive, 6000 cubic feet of inert or simple asphyxiant, 504 cooxidizing (including oxygen), or any amount of toxic or highly toxic greater of the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. So Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. For the use of open-flame producing equipment in a mall building. To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	rerizing aluminum, bing comb. dust. than 100 cubic ft. reeding: 200 cubic tubic feet of as. rent, or displays of a pic fluids in nside/500 gals.
Producing Operation Coal, cocoa, magnesium, spices or sugar, or other operations produced the storage and handling of combustible fibers in quantities greater to the storage, use and handling of compressed gases in amounts except feet of corrosive, 6000 cubic feet of inert or simple asphyxiant, 504 control oxidizing (including oxygen), or any amount of toxic or highly toxic greater to the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. But Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. For the use of open-flame producing equipment in a mall building. For the use of open-flame producing equipment in a mall building. To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	than 100 cubic ft. eeding: 200 cubic ubic feet of as. ent, or displays of nic fluids in nside/500 gals.
6 Combustible Fibers 7 Compressed Gases The storage and handling of combustible fibers in quantities greater to the storage, use and handling of compressed gases in amounts except feet of corrosive, 6000 cubic feet of inert or simple asphyxiant, 504 coxidizing (including oxygen), or any amount of toxic or highly toxic gases. 8a Covered Mall Bldgs. For the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. 8b Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. 8c Covered Mall Bldgs. For the use of open-flame producing equipment in a mall building. 7 To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	than 100 cubic ft. eeding: 200 cubic ubic feet of as. ent, or displays of nic fluids in nside/500 gals.
The storage, use and handling of compressed gases in amounts except feet of corrosive, 6000 cubic feet of inert or simple asphyxiant, 504 coxidizing (including oxygen), or any amount of toxic or highly toxic gases. 8a Covered Mall Bldgs. For the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. 8b Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. 8c Covered Mall Bldgs. For the use of open-flame producing equipment in a mall building. 9 Cryogenic Fluids To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	eeding: 200 cubic ubic feet of as. ent, or displays of as. nic fluids in nside/500 gals.
feet of corrosive, 6000 cubic feet of inert or simple asphyxiant, 504 coxidizing (including oxygen), or any amount of toxic or highly toxic gas. 8a Covered Mall Bldgs. For the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. 8b Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. 8c Covered Mall Bldgs. For the use of open-flame producing equipment in a mall building. 9 Cryogenic Fluids To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	ubic feet of as. ent, or displays of as. nic fluids in nside/500 gals.
oxidizing (including oxygen), or any amount of toxic or highly toxic grades. 8a Covered Mall Bldgs. 8b Covered Mall Bldgs. 8c Covered Mall Bldgs. 9 Cryogenic Fluids For the display of liquid-or gas-fired equipment in a mall building. For the use of open-flame producing equipment in a mall building. To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	as. ent, or displays of nic fluids in nside/500 gals.
8a Covered Mall Bldgs. 8b Covered Mall Bldgs. 8c Covered Mall Bldgs. 9 Cryogenic Fluids For the placement of retail fixtures and displays, concession equipment highly combustible goods in the mall. For the display of liquid-or gas-fired equipment in a mall building. For the use of open-flame producing equipment in a mall building. To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	ent, or displays of nic fluids in nside/500 gals.
highly combustible goods in the mall. 8b Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. 8c Covered Mall Bldgs. For the use of open-flame producing equipment in a mall building. 9 Cryogenic Fluids To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	nic fluids in nside/500 gals.
8b Covered Mall Bldgs. For the display of liquid-or gas-fired equipment in a mall building. 8c Covered Mall Bldgs. For the use of open-flame producing equipment in a mall building. 9 Cryogenic Fluids To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	nside/500 gals.
8c Covered Mall Bldgs. For the use of open-flame producing equipment in a mall building. 9 Cryogenic Fluids To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	nside/500 gals.
9 Cryogenic Fluids To produce, store, transport on site, use, handle or dispense cryoger excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	nside/500 gals.
excess of: >1 gal. flammable inside/60 gals. outside; 60 gals. inert in outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	nside/500 gals.
outside; 10 gals. oxidizing (incl. oxygen) inside/50 gals. outside; or	
	any amount
posing a physical or health hazard inside or outside.	
10 Dry Cleaning Plants To engage in the business of dry cleaning utilizing nonaqueous liquid	s (solvents).
11 Exhibits/Trade Shows To operate an exhibit or trade show.	
12a Explosives For the manufacture, storage and handling of explosives.	
12b Explosives For blasting operations (good for one year or length of project).	
12c Explosives For Indoor fireworks display.	
12d Explosives For Outdoor fireworks display.	I Ctotuto 14 414
12e Explosives For fireworks sales. Note: Excludes fireworks allowed by NC Genera 13a Flammable Liquids For the storage of flammable liquids, 5 to 50 gals. Inside, or 10 to 50	
13a Flammable Liquids For the storage of flammable liquids, 5 to 50 gals. Inside, or 10 to 50 gals. Inside, or 10 to 50 Flammable Liquids For the storage of flammable liquids, 51 to 500 gals. on the property.	•
13c Flammable Liquids For the storage of flammable liquids, 51 to 5000 gals. on the property.	
13d Flammable Liquids For the storage of flammable liquids, 30 1 to 3000 gals. On the proper	
14a Combustible Liquids For the storage of combustible liquids, 95 to 60 gals. on the property.	
14b Combustible Liquids For the storage of combustible liquids, 61 to 500 gals. on the property	
14c Combustible Liquids For the storage of combustible liquids, 501 to 5,000 gals. on the property	,
14d Combustible Liquids For the storage of combustible liquids, greater than 5000 gals. on the	
15 Flammable and To operate tank vehicles, equipment, tanks, plants, terminals, wells of	
Combustible Liquids	
16 Flammable and To install, alter, remove, abandon in place, or place temporarily out of	f service below
Combustible Liquids or above-ground tanks.	
17 Flammable and To change the type of contents in a tank to a product greater in haza	rd than tank
Combustible Liquids designed for.	
18 Flammable and To manufacture, process, blend or refine flammable or combustible I	iquids.
Combustible Liquids	
19 Flammable and To engage in dispensing fuel into the fuel tanks of motor vehicles at o	
Combustible Liquids governmental or manufacturing establishments, (including service	,
20 Flammable and To utilize a site for the dispensing of fuels from tank vehicles into the	e fuel tanks of
Combustible Liquids motor vehicles.	
21 Fumigation and Thermal To operate a business of fumigation or thermal insecticidal fogging, a	
Insecticidal Fogging room, vault or chamber where a toxic or flammable fumigant is used.	
22a Hazardous Materials To store, dispense, use or handle hazardous materials in amounts <	
<1,000 lbs., or <1,000 cu. ft. Note: See below minimum amts. for all l	

CFD Permit Types and Descriptions

22b	Hazardous Materials	To store, dispense, use or handle hazardous materials from 111 to 1,100 gallons,
		1,001 to 10,000 lbs., or 1,001 to 10,000 cubic feet.
22c	Hazardous Materials	To store, dispense, use or handle hazardous materials from 1,101 to 5,500 gallons,
		10,001 to 50,000 lbs., or 10,001 to 50,000 cubic feet.
22d	Hazardous Materials	To store, dispense, use or handle hazardous materials in amounts >5,500 gallons,
		>50,000 lbs., or >50,000 cubic feet.
24	Lumber Yards and Wood-	For the storage and processing of lumber exceeding 100,000 board feet. Note: One
	Working Plants	board foot is 12 inches wide, 12 inches long, and 1 inch thick.
25	Deleted	
26	Place of Assembly	To operate a Place of Assembly (50 or more persons built under the IFC, 100 or more
		persons built under the 1996 Standard Building Code or earlier).
27	Repair Garages	For the operation or use of a building, or portion thereof, for the repair of motor vehicles.
28	Rooftop Heliports	For the operation of a rooftop heliport.
29	Spraying and Dipping	To conduct a spraying or dipping operation utilizing flammable or combustible liquids,
	Operations	or the application of combustible powders regulated by Chapter 15.
30	Temp. Membrane Structures	To operate an air-supported temporary membrane structure or a tent in excess of 200
	Tents, Canopies	square feet, or a canopy in excess of 400 square feet (see exceptions below).
31	Tire Rebuilding Plants	For the operation and maintenance of a tire rebuilding plant.
32	Waste Handling	For the operation of wrecking yards, junk yards and waste material handling facilities.
33	Day Cares/Group Homes	To operate a state licensed day care or group home

Threshold amounts for Hazardous Material Permits:

Corrosive Materials: Liquids: 55 gallons, Solids: 1000 lbs. (Note: Corrosive gases covered under permit type code 7). Flammable Solids: 100 lbs. (Flammable gases and liquids covered under permit codes 7 and 13a thru 13d respectfully). Highly Toxic Materials: Any amount of liquids or solids (gases covered under permit type code 7). Note: Refer to Section 3702 for definition of "highly toxic" material, and Appendix E for hazard categories of most common highly toxic materials. Oxidizing Materials: Liquids: Class 4 - any amount, Class 3 - 1 gallon (exception: 20 gals. for maintenance purposes or sanitation of equipment, provided containers and manner of storage are approved), Class 2 - 10 gallons, Class 1 - 55 gallons. Solids: Class 4 - any amount, Class 3 - 10 lbs. (exception: 200 lbs. utilizing same criteria established above for liquids), Class 2 - 100 lbs., Class 1 - 500 lbs. Note: Refer to Appendix E for hazard categories of most common oxidizers. Organic Peroxides: Liquids: Class 1 - any amount, Class 2 - any amount, Class 3 - 1 gallon, Class 4 - 2 gallons,

Class 5 - no permit required.

Solids: Class 1 - any amount, Class 2 - any amount, Class 3 - 10 lbs., Class 4 - 20 lbs., Class 5 - no permit required. **Note:** Refer to Appendix E for hazard categories of most common organic peroxides.

Pyrophoric Materials: *Liquids or Solids:* any amount. **Note:** Refer to Appendix E for hazard categories of most common pyrophoric materials.

Toxic Materials: *Liquids:* 10 gallons, *Solids:* 100 lbs. Refer to Section 3702 for definition of "toxic material", and Appendix E for hazard categories of most common toxic materials.

Unstable Materials: *Liquids:* Class 4 - any amount, Class 3 - any amount, Class 2 - 5 gallons, Class 1 - 10 gallons. *Solids:* Class 4 - any amount, Class 3 - any amount, Class 2 - 50 lbs., Class 1 - 100 lbs. **Note:** Refer to Appendix E for hazard categories of most common unstable materials.

Water- Reactive Materials: Liquids: Class 3 - any amount, Class 2 - 5 gallons, Class 1 - 55 gallons.

Solids: Class 3 - any amount, Class 2 - 50 lbs., Class 1 - 500 lbs. **Note:** Refer to Appendix E for hazard categories of most common water-reactive materials.

Tent and Canopy Permit exceptions:

Tents used exclusively for recreational camping purposes, or canopies open on all sides which: (1) Do not exceed 700 square feet, (2) Multiple canopies without a fire break clearance of no less than 12 feet that have an aggregate area of 700 square feet, and (3) a minimum clearance of 12 feet is maintained from other tents and structures.
